

Innovation and Implementation accelerator for Complex Rehabilitation Technology (i2-CoRT)

Opening symposium Thursday May 24th, 2018

Venue

Auditorium Adelante Hoensbroek, the Netherlands

i2-CoRT brings together state-of-the-art knowledge & experience of rehabilitation centres, knowledge centres, (SME) businesses, healthcare sector organizations and patients (organizations) in order to promote and accelerate rehabilitation technology innovation and implementation.

Aim of the symposium

With the symposium the i2-CoRT project will be officially opened. The symposium consists of both oral presentations and posters / information stands on the Interreg V-A Euregio Meuse Rhine program, the i2-CoRT project and the clinical and scientific activities of the i2-CoRT partners.
